Hi Ed (and Dan),

Dan actually sent me an e-mail earlier volunteering for the job. Now we have two capable ET leads for this important task. I see some advantages to Dan taking this on (gets him immersed in Yakima issues, spreads the work out a little, Marie is a direct report), but why don't you two talk today and let me know how you want to proceed. I do think this is an important job and some ET direction will be needed to set a schedule, keep to it and decide how we best respond to the comments received. I told Dan I would send out a note to everyone involved in the Yakima work with the "annointment".

Subject: Responding to the Comments on the Yakima Report

I spoke briefly with Marie today and suggested that one of us volunteer to be the ET "lead" for assisting the Yakima Team in responding to comments.

The main duties of the lead are to:

~~assure that the team has the resources they need to respond to the questions~~

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

to give direction to the team, as needed, to resolve different opinions on how to respond to comments

to keep the broader ET Yakima group informed on progress and engaged if needed on resolving different opinions

other?

Any volunteers?
